

**REMARKS**

This amendment after allowance is being filed to correct an obvious typographical error to claim 18. The phrase "based on a design objective of the mechanical equipment" was repeated twice, one phrase right after the other phrase. This amendment is being filed with payment of the issue fee.

**CONCLUSION**

For at least all of the above reasons, Applicants respectfully request that the amendment after allowance be entered and for the case proceed to issuance. The Examiner is invited to call the undersigned if there are any questions.

Respectfully submitted,
